

COUNTIN' ON YOU

Careful what you do (they say)
Careful of what you say (but I tell ya)
They don't matter in the end my friend
So you might as well go your own way

Nobody needs anybody to tell' em
How to think or what to do
Stop cravin' their answers
Start countin' on you

You can make believe
Half is really whole but
That's when they step in to win
'Fore you know it
You've lost all control

Let's all rise 'n' shout
Don't let them put you out
We've been sleepin' for way too long
Now it's time to make it all count
