

GHOSTS IN MY MIND

Colors dissolve turn into grey
Feel like I'm stuck in another day
Wish there was somethin' more I could do
I'm frozen in time dreamin' 'bout you

Choices we make never decay
They're ghosts in our minds
Where they're gonna stay
Chasin' a vapor fuelin' a flame
Sure got a price 'n' I know its name

Wishin' won't make them go away
The hurt in my heart grows more every day

Rememberin' when we said goodbye
The smile on your lips 'n' tears in your eyes
So very young I couldn't see
Just what I had - what you meant to me

Watchin' the shadows crawl 'cross the floor
Cursin' the way I'm missin' you more
Done all I could - no use in cryin'
Haunted each day by ghosts in my mind

Wishin' won't make them go away
The hurt in my heart grows more every day

Leave this behind go to your door
Hope you can love me just like before
Pray there's a way that I can find
To get you to free these ghosts in my mind
