

## HARMONY

River gotta flow to the sea  
Taken where the tide wanna be  
Floatin' on in harmony endlessly

Got a lot o' life left to live  
Got a lot o' love left to give  
It's so easy by you bein' me

I can feel the freedom in your eyes  
Shinin' like the starlight in the skies  
Come pour your sunshine on my mind  
Sure cures what ails me every time

Put the paint right back on my style  
Finally turned the dial - been awhile  
Surf city seems a million miles away  
So pretty girl you brighten up my day

Nothin' worth a damn we ain't got  
Been thinkin' 'bout the future a lot  
Send your smile on over here my way

Got a lot o' life left to live  
Got a lot o' love left to give  
It's so easy by you bein' me

I can feel the freedom in your eyes  
Shinin' like the starlight in the skies  
Come pour your sunshine on my mind  
Sure cures what ails me every time

River gotta flow to the sea  
Taken where the tide wanna be  
Floatin' on in harmony endlessly (they be)  
Floatin' on in harmony endlessly
