

## HIDE AWAY

Don't know the reason  
Emotions are freezin'  
Wish I could somehow say  
Don't wanna take it  
Not gonna fake it  
Goin' to hide away

Hide away get away today

Need to just slowly slip away  
Catch up with you some other day  
Leave today and find my way  
So for now I'll hide away

Tired of the routine  
Don't wanna be seen  
Got nothin' much to say  
Pick a location  
Remote destination  
Somewhere to hide away

Wanna come with me?  
Where we'll be care-free  
Sharin' the night 'n' the day  
Capture the spirit  
In silence we'll hear it  
Guide us along the way  
Hide away get away today
