

IF EVER

If ever the mountains fall to the sea
There'd still be the love holdin' you and me
If ever the stars forget to shine
It wouldn't matter, you'll shine for all time

If ever the earth stops spinnin' around
We'd soar together far from the ground
If ever time ends or tides fade away
I'll love you forever, 'ever and a day

Whenever you smile it's such a blast
I'll never need more than that to last
Whenever you're near, cares fade away
You're somethin' like magic, what can I say
