

INFINITE EMBRACE

Her smile's like sunlight on a snowfall
It melts my heart 'n' warms my bones
Her hair's like a shady tree in summer
Anywhere with her feels like home
No matter where our lives may roam

Her eyes hold the myst'ries of the ages
Two jewels that shine light blue 'n' gold
She laughs like a child with wild abandon
She'll lift your heart 'n' save your soul
More than any other thing I been told

Years float on by revise the skyline
Erasin' places we would go
One thing that never ever changes
That's how my love for her will grow
More than any other thing that I know

Long after laughter 'n' all sorrow
As spirits shinin' in love's grace
We'll be together all tomorrows
Forever . . . infinite embrace
In our infinite embrace
Forever . . . infinite embrace
