

NYC

Livin' in the city
Com'on over com'on with me
I'm free

A million different faces
Thousand different places
To see

Let the reggae 'n' the hard rock
The jazz 'n' alt 'n' hip-hop
Flow free

The music and emotions
Propel the constant motion
In me

For the tried 'n' true 'n' gritty
Nothin' beats the city
For me

Here your gonna find me
Those streets define me
Fly free

Concrete steel 'n' glass
Visions from the past
Set free

Myst'ries yield their clues
In the brightness of the views
We'll see

Let the reggae 'n' the hard rock
The jazz 'n' alt 'n' hip-hop
Flow free
