

TRY IT AGAIN

Never thought you'd find the time
Never thought you'd look so fine
Tell by the lazy look in your eye
Gonna gimme one mo' try

The way I prayed now 'n' then
Oh my, let's try it again

Seems like only yesterday
You were here 'n' gonna stay
Never gave a second thought
Now I'm a ship without a port

To stay, hide away this storm
Gotta say every day mo' forlorn

Shoulda come as no surprise
Missed that message in your eyes
Never's really quick that way
Hardly hear what people say

If I say so then I'd be lyin'
Half the time I ain't even tryin'

Funny how things slip away
Somethin' near gets far some day
Now seein' you is hope fo' sure
Ain't too late to unlock your door

The way I prayed now 'n' then
Oh my, let's try it again
